

BHAVESH KUMAR MALI

Frontend Engineer

bhaveshmali9116@gmail.com | +91-9116705227 | github.com/bhavesh7604 | linkedin.com/in/bhavesh-mali-4baa2b1ab | India · Open to Remote

PROFESSIONAL SUMMARY

B.Tech Computer Science graduate (Mohanlal Sukhadia University, 2025) and triple GATE qualifier (2024–2026) with hands-on experience shipping full-stack, production-grade web products. Independently architected and deployed a production retail POS system handling live Razorpay transactions, as well as a real-time social platform with live messaging. Proficient in React, Next.js, TypeScript, and modern frontend engineering practices. Targeting remote-first frontend engineering roles.

SKILLS

Languages: C/C++ (Advanced), JavaScript (Advanced), Python (Intermediate)

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Redux, HTML5, CSS3, React Router, Responsive Design

Backend & Tools: Node.js, REST APIs, PostgreSQL, Razorpay API, Vercel, Supabase, Git, GitHub, VS Code

Cloud: IBM Cloud Fundamentals

Languages Spoken: English, Hindi

PROBLEM SOLVING / DSA

- 100+ DSA problems solved across LeetCode and Code Studio (103 on LeetCode: 60 Easy, 39 Medium, 4 Hard) — leetcode.com/u/bhaveshmali9116
- Core strength areas: Arrays, Binary Search, Dynamic Programming, Two Pointers, Hash Tables, and Sorting.

PROJECTS

Ganpati Sales & Service — Full-Stack Retail & POS Ecosystem

Personal Project · Next.js · React · TypeScript · Tailwind CSS · Razorpay · Supabase

- Architected and deployed a production-grade POS system from scratch, managing 50+ SKUs and end-to-end inventory, billing, and payment processing for a live electronics retail business.
- Engineered a real-time inventory engine with automatic stock updates triggered on successful Razorpay payment events, eliminating manual reconciliation across 50 product lines.
- Integrated Razorpay's REST API to process 20,000+ live UPI, card, and QR transactions with server-side webhook verification, reducing payment failure risk.

Wire — Real-Time Social Media Platform

Personal Project · Next.js 16 · TypeScript · Tailwind CSS · Supabase · WebSockets

- Architected and shipped a full-stack, real-time social networking platform using Next.js 16 App Router, TypeScript, and Supabase, implementing authentication, content sharing, and social engagement features end-to-end.
- Built real-time feed updates, live likes/comments, and a direct messaging system using Supabase Realtime WebSocket channels, delivering instant UI updates across connected clients without page refresh.
- Designed a relational PostgreSQL schema secured with Row Level Security (RLS) across 7 tables (profiles, posts, likes, comments, follows, conversations, messages), enforcing user-scoped data access at the database layer.
- Deployed on Vercel with continuous deployment from GitHub, using Server Actions and serverless edge functions for scalable, low-latency delivery.

Modular Frontend Architecture — Reusable UI Component Library

Personal Project · React · TypeScript · Modern CSS Frameworks

- Designed and implemented a library of modular, reusable UI components optimized for high-performance rendering and long-term scalability.
- Achieved 100% mobile responsiveness and cross-browser compatibility across Chrome, Firefox, and Safari using modern CSS frameworks.

Electronics Shop Inventory & Invoice System — Personal Project

React · Supabase · Vercel · GST Compliance

- Built a complete inventory management system tracking 50+ SKUs with GST calculations and PDF invoice generation tailored for a local electronics shop.
- Deployed on Vercel with Supabase as the backend, enabling real-time stock tracking and printable invoices without a separate server.

EXPERIENCE

Web Development Intern — Prodigy InfoTech

Aug 2026 · 1-Month Program

- Completed a 1-month Web Development internship (1st–31st August 2026) with outstanding remarks, praised for strong technical skills, initiative, and problem-solving ability.
- Tackled complex development tasks with attention to detail and creativity, earning a Letter of Recommendation from the Software Engineering Manager.

Frontend Development Intern — IRSO Group

Jan 2024 – Mar 2024

- Developed and shipped high-performance UI interfaces using React.js and Tailwind CSS, contributing directly to production features.
- Collaborated with a cross-functional dev team on API integration tasks, improving component reusability and user retention.

Virtual Intern — AI & Cloud — Edunet Foundation (IBM / AICTE)

Jun 2024 – Jul 2024

- Completed a 4-week intensive on IBM Cloud and SkillsBuild, gaining practical exposure to AI and cloud computing fundamentals.
- Applied learnings through hands-on project work on the IBM platform, earning certification in AI & Cloud Computing.

Full Stack Web Development Intern (MERN) — Skill Nexis

2026 · 6-Week Program

- Completed a 6-week Full Stack Web Development program covering the MERN stack, earning a Certificate of Completion.

CERTIFICATIONS

- Web Development — Prodigy InfoTech, Certificate of Completion & Letter of Recommendation (August 2026)
- AI & Cloud Computing Fundamentals — IBM SkillsBuild / Edunet Foundation (AICTE)
- Full Stack Web Development (MERN) — Skill Nexis, Certificate of Completion

EDUCATION

B.Tech — Computer Science — Mohanlal Sukhadia University, Udaipur

2021 – 2025 · CGPA: 8.15 / 10 · First Division with Distinction

Senior Secondary (12th) — Govt. SR Sec School, Takhatgarh · 2020 – 2021

Secondary (10th) — Govt. SR Sec School, Takhatgarh · 2018 – 2019

AWARDS & ACHIEVEMENTS

- Triple GATE Qualified (2024, 2025, 2026): Cleared the Graduate Aptitude Test in Engineering — Computer Science — in three consecutive years, placing in a nationally competitive cohort.
- First Division with Distinction (B.Tech 2025): Graduated with CGPA 8.15, reflecting consistent academic performance across core CS subjects.
